

# Zoo Planckendael

Though there are plenty of exotic animals to admire in its 40 hectares, Planckendael is much more than 'just' an animal park. Planckendael is synonymous with adventure! For example, you can follow a trail that leads across suspension bridges and through the treetops. There is more than enough space for children to play, for animals to frolic and visitors to stroll. This outing is a guaranteed hit! The Zoo was a prize-winner too. It was crowned the 'Child-friendliest Zoo' by the Diamond Theme Park Awards, the Oscars for the best theme parks and attractions in Europe!
